

Decorated marquee canopies

These finely printed hangings embellish marquees of all sizes with a delightful engraved ceiling and wall effect. The charming natural images applied to swags and drapes, break up the lines of the venue and provide a subtle complement to floral decoration and event themes.

Their presence is discrete, but the ceiling lowering effect of repeated motifs against a neutral background can have a dramatic impact on the intimacy of the marquee.

Choose from Butterfly, Dandelion, Feather or Terns, or create your own canopy effect with a bespoke design. Please refer to the reverse of this leaflet for more details.

A choice of marquee effects

These decorated swags and drapes are available with a choice of four illustrations, each created to complement a variety of occasions. Their use and specific layout within the marquee can be discussed during the planning and quoting period of your event.

Alternatively, you can stamp a visual signature on the proceedings by commissioning an exclusive design. We can work with your own illustrations or arrange to have your rough ideas translated into finished designs by a professional illustrator.

Decorated marquee canopies are a delightful option that lends real individuality to a special occasion.

Please call Mudfords now on 01777 703489 to discuss your specific requirements.
