

STRENGTH THROUGH SHAPE

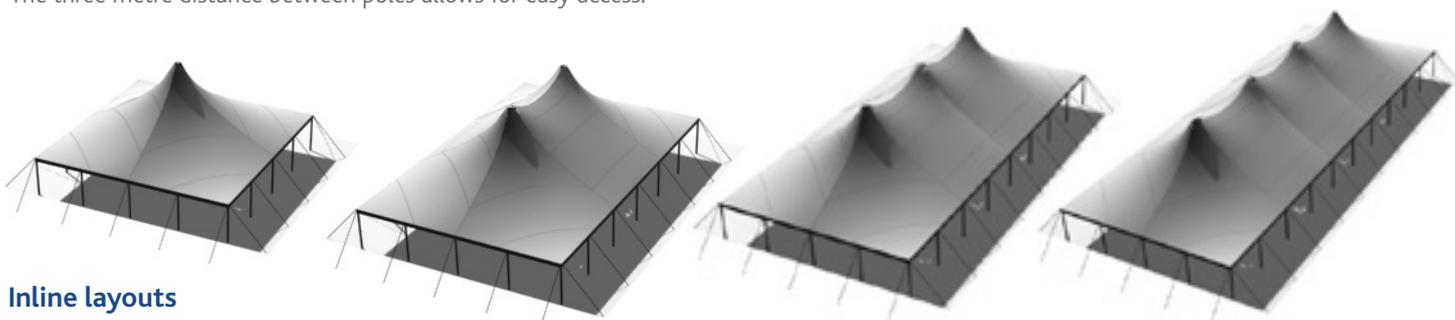

THE MATRIX IS A STATE OF THE ART MEMBRANE STRUCTURE

The Matrix structure expands in two directions, allowing for many configurations. If you require top class temporary structures for exhibitions, hospitality, weddings or road shows, the Matrix is the perfect solution.

These dramatic tents are carefully shaped to defy the elements. Their smooth, regal curves actually resist the wind and the weather with a special aerodynamic design. Strong, clean lines give all indication that this is no ordinary occasion under any kind of ordinary tent.

These tents are peaked with artistic curves and are currently available in widths of: 12m, 18m and 30m. The three metre distance between poles allows for easy access.
