

# Premier quality portable toilets

A premier portable toilet from Mudfords ensures that the care and attention put into your event-planning is carried right through to the personal hygiene facilities provided for your guests.

These stable units are attractively finished and fully furnished with quality soap, tissue and towel dispensers. They are completely self-contained, and simply need to be plugged into a standard 240v power source.

# Convenience and cleanliness that leaves the right impression

Each premier portable toilet unit provides top quality personal hygiene facilities for up to 350 guests. Hot and cold water is on tap in generous quantities and the flushing systems are robust but discrete.

Most units feature 3 toilets in the Ladies section and 1 plus 3 urinals in the Gents. Each section has two hand basins.

At the end of the event, Mudfords will remove the unit and dispose of all waste with environmental sensitivity. Or for longer events, on-site servicing can be provided.

For friendly advice and to discuss your specific needs, please call Mudfords now on 01777 703489.

Example of Toilet Block - units vary in size and layout.
